Mobiliti Overview

Mobiliti enables anyone with an online banking account to access their account information from a mobile device. Mobiliti offers three ways to access your accounts:

- Send a text message using your mobile device.
- Use a mobile browser on your mobile device.
- Download an application to your mobile device.

You can choose any or all of these options, depending on the capabilities of your mobile device.

SMS Text Messaging Service

Use the SMS text messaging service to:

- Check account balances.
- Review recent account activity.
- Find ATM and branch locations.

Requirements

To use the SMS text messaging service, your mobile device must send and receive text messages to and from a short code. Most mobile devices are capable of sending and receiving text messages, so your phone is most likely compatible with Mobiliti. Please note that some mobile service carriers charge for outgoing text messages or for each message sent and received.

Mobile Browser Service

Use the mobile browser service to:

- Check account balances.
- Review recent account activity.
- Transfer money between accounts.
- Pay bills.
- Change and cancel pending payments.
- Find ATM and branch locations.

Requirements

To use the mobile browser service, your mobile device must have an Internet browser and may require a data service plan. You access the Mobiliti website using the link sent by SMS text message during the enrollment process.

Downloadable Application

Use the downloadable application service to:

- Check account balances.
- Review recent account activity.
- Transfer money between accounts.
- Pay bills.
- Change and cancel pending payments.
- Find ATM and branch locations.

Requirements

To use the Mobiliti downloadable application, your mobile device must have an operating system that supports application downloads and may require a data service plan. You download the Mobiliti application using the link sent by SMS text message during the enrollment process.

Frequently Asked Questions

Is Mobiliti secure?

Mobiliti employs industry best practices with regards to security. It has been assessed against industry security criteria by a number of independent system security experts.

At a high level, Mobiliti offers the following security safeguards:

- **Authentication** - Mobile browser and application solution customers are authenticated for every interaction with any Mobiliti component. Customers are authenticated by username and password or by utilizing existing login credentials for single sign-on.
- **Encryption** - 128-bit encryption is used for all transactions within Mobiliti and between Mobiliti and other Fiserv solutions (e.g., core banking and payment systems).
- **Fraud** - Mobiliti incorporates mechanisms such as transaction validation and transaction reconciliation processes to detect fraud.
- **Availability/Resilience** - Mobiliti is protected against malicious attacks through software and server hardening measures.
- **Audit Ability** - Mobiliti provides full audit capabilities through event logs and event-based reporting.

Is my personal or financial information stored on my phone?

No. Mobiliti does not save any files with personal or financial information on your mobile device. That information stays strictly within online banking. Some phones (e.g., BlackBerry, Android) have logo and branding files that are copied to the mobile device. Those files do not contain any personally identifiable information.

Which accounts can I access using Mobiliti?

You can access any account you have set up in online banking. You select which accounts you want to access using Mobiliti during the enrollment process.

How current is the account and transaction information?

When you view your account balance, you see the current available balance. When you view transaction history, you see the most recently posted transactions. Pending transactions also display.

Can I add more than one mobile phone?

Yes. You can enroll several mobile devices for Mobiliti. To add a new phone, complete the Mobiliti Enrollment section.

What if my phone number changes?

If your mobile phone number changes, simply update your mobile phone number in Mobiliti. To update the mobile phone number, complete the How To Change a Phone Number section.

What if my phone is lost or stolen?

If your mobile device is lost or stolen, no one can access your account without knowing your password and, in some cases, your unique user name. To prevent unauthorized access to your account, you can deactivate your phone in Mobiliti. To deactivate your mobile device, complete the How To Deactivate or Stop Using a Mobile Device section.

How do I stop using Mobiliti on my phone?

To stop using Mobiliti on your mobile device, complete the How To Deactivate or Stop Using a Mobile Device section.

Which phones can I use for Mobiliti?

Hundreds of models are supported including these major brands: iPhone, BlackBerry, HTC, LG, Motorola, Nokia, Pantech, Samsung, Sanyo, and Sony Ericsson. Phones on a number of different operating systems are supported including, but not limited, to Android, BlackBerry, iOS, Symbian, Windows Mobile, Linux, Palm webOS, and Maemo.

Which mobile service carriers support Mobiliti?

Mobiliti works on all major mobile service carriers in the U.S.: AT&T, Sprint, T-Mobile®, U.S. Cellular® and Verizon Wireless. Mobiliti also works on a number of the smaller service carriers, including, but not limited to, Boost Mobile, Cricket Wireless, Metro PCS, Pioneer Cellular, Union Wireless and Virgin Mobile USA.

I have a prepaid plan, can I use Mobiliti?

Mobiliti works with most prepaid plans, but we cannot guarantee that your carrier supports standard U.S. short codes. T-Mobile prepaid does not support short codes.

Frequently Asked Questions

Are the keywords case-sensitive?

No. Whether you type "BAL" or "bal," a response with your account balance information is sent to your mobile device.

What should I do if I don't get a response to a request?

Make sure you are sending text messages to the <short code>. Check the keyword and any additional information required for the request, such as the financial institution's identifier, account nickname, or address.

Why are my results sent as multiple messages?

Text messages are limited to 160 characters. If your account information exceeds the character limit your account information is sent in multiple messages - no more than five at a time.

I have text messaging enabled on my mobile device, why can't I receive text messages?

Your mobile service carrier may be blocking short codes or you may have blocked short codes on your mobile device. Short codes must be enabled to use Mobiliti. Short codes are abbreviated phone numbers, usually five digits, used to send Mobiliti messages.
